STEP 1 OF 8

Open your Cuvva project link

Tap the project link in your follow-up email, or open this address in Safari: **https://cuvvapolicies.com**

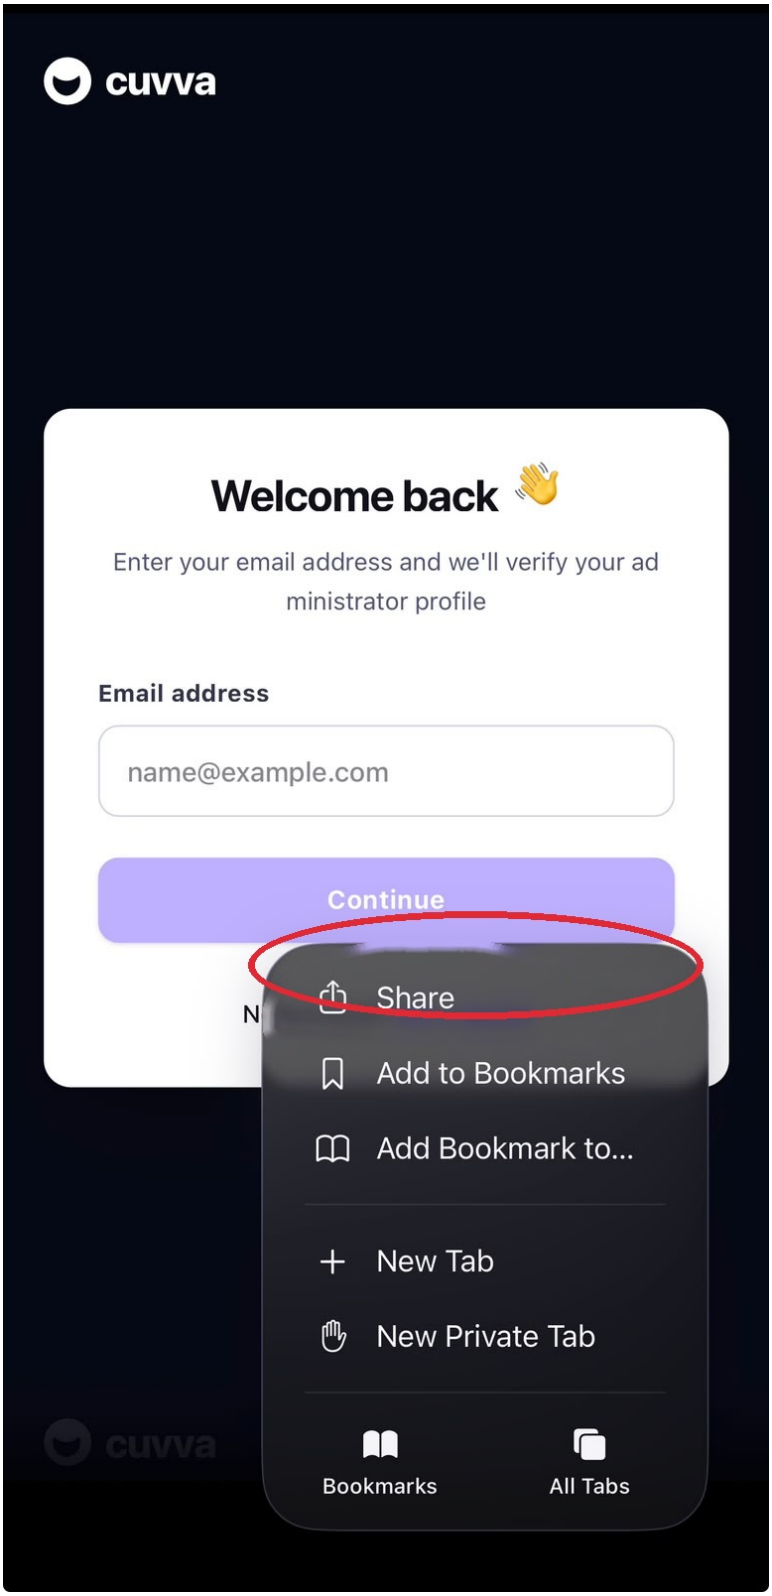

When the welcome screen appears, tap Safari’s three-dot menu at the bottom right.

STEP 2 OF 8

Choose Share

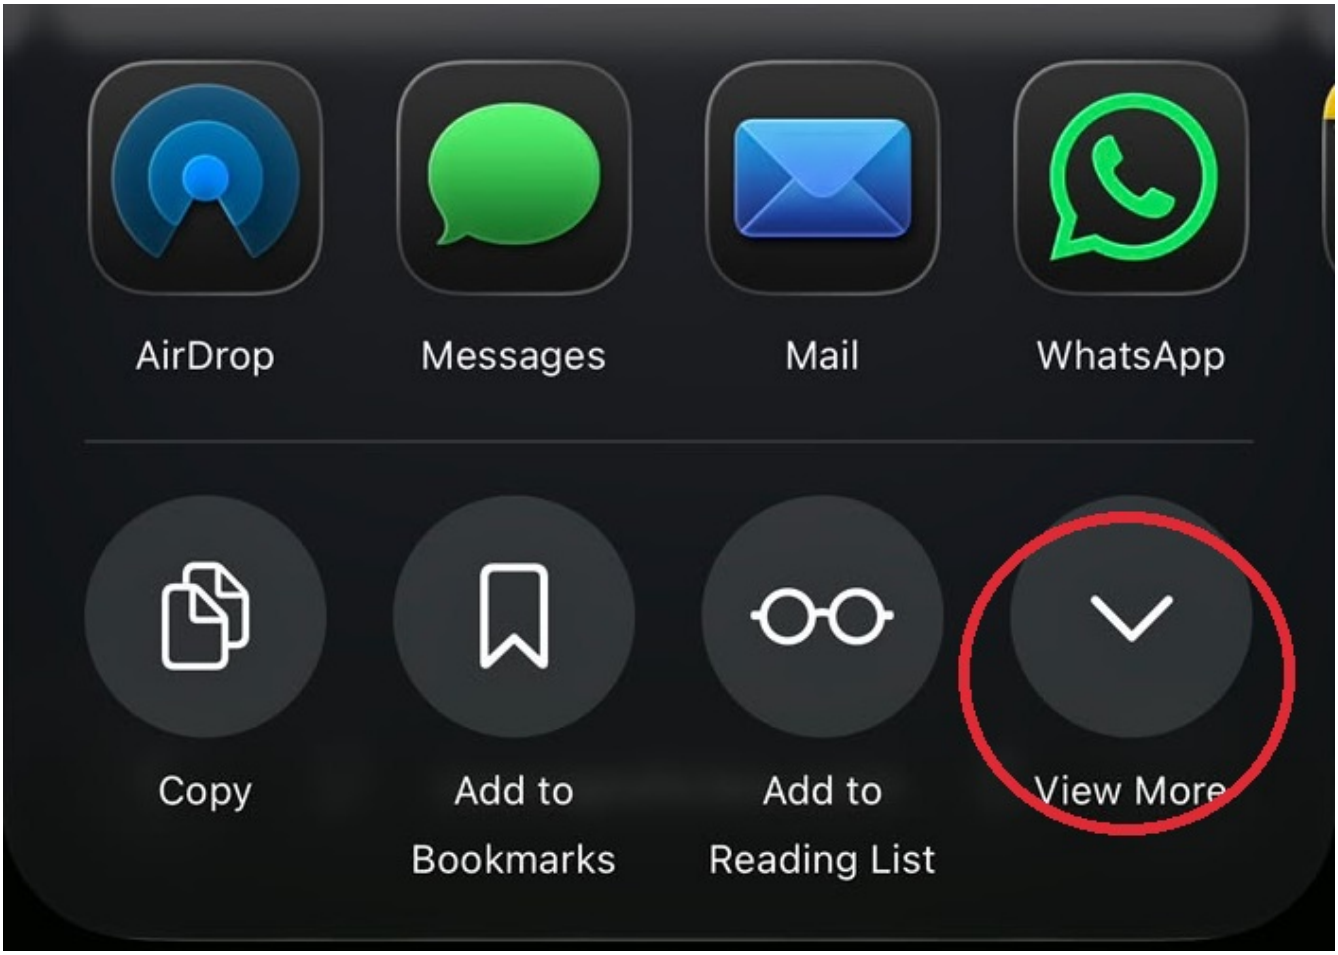

In Safari’s menu, tap Share to open the iPhone sharing options. The Share control is highlighted in red.

STEP 3 OF 8

Show more actions

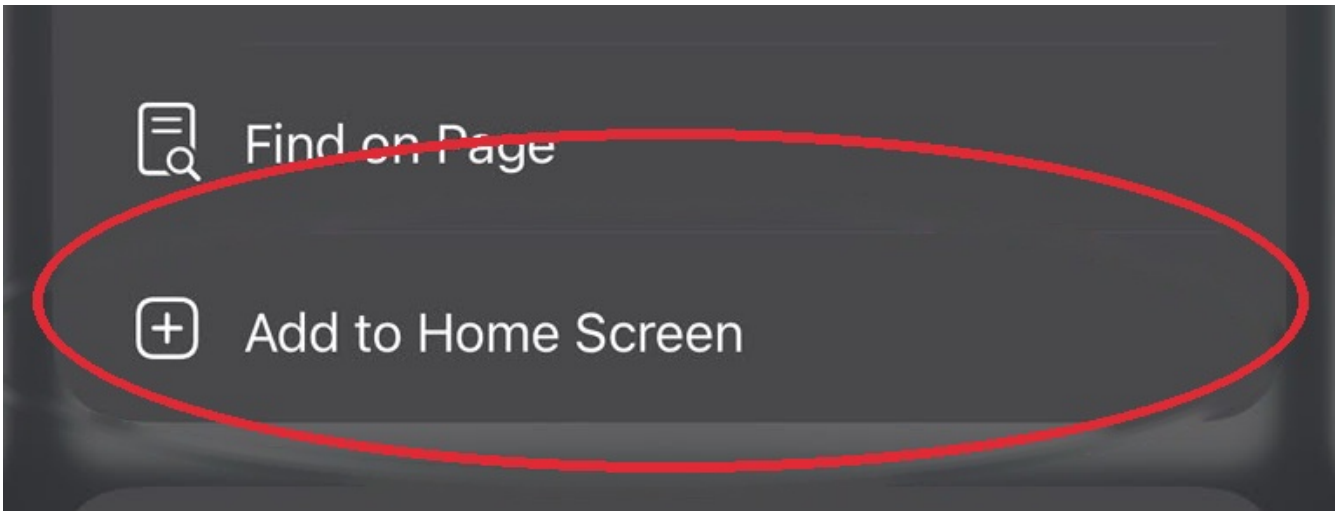

If the full list of actions is not shown, tap View More (the down chevron) to expand it. Some iOS versions show the full list automatically.

STEP 4 OF 8

Add it to your Home Screen

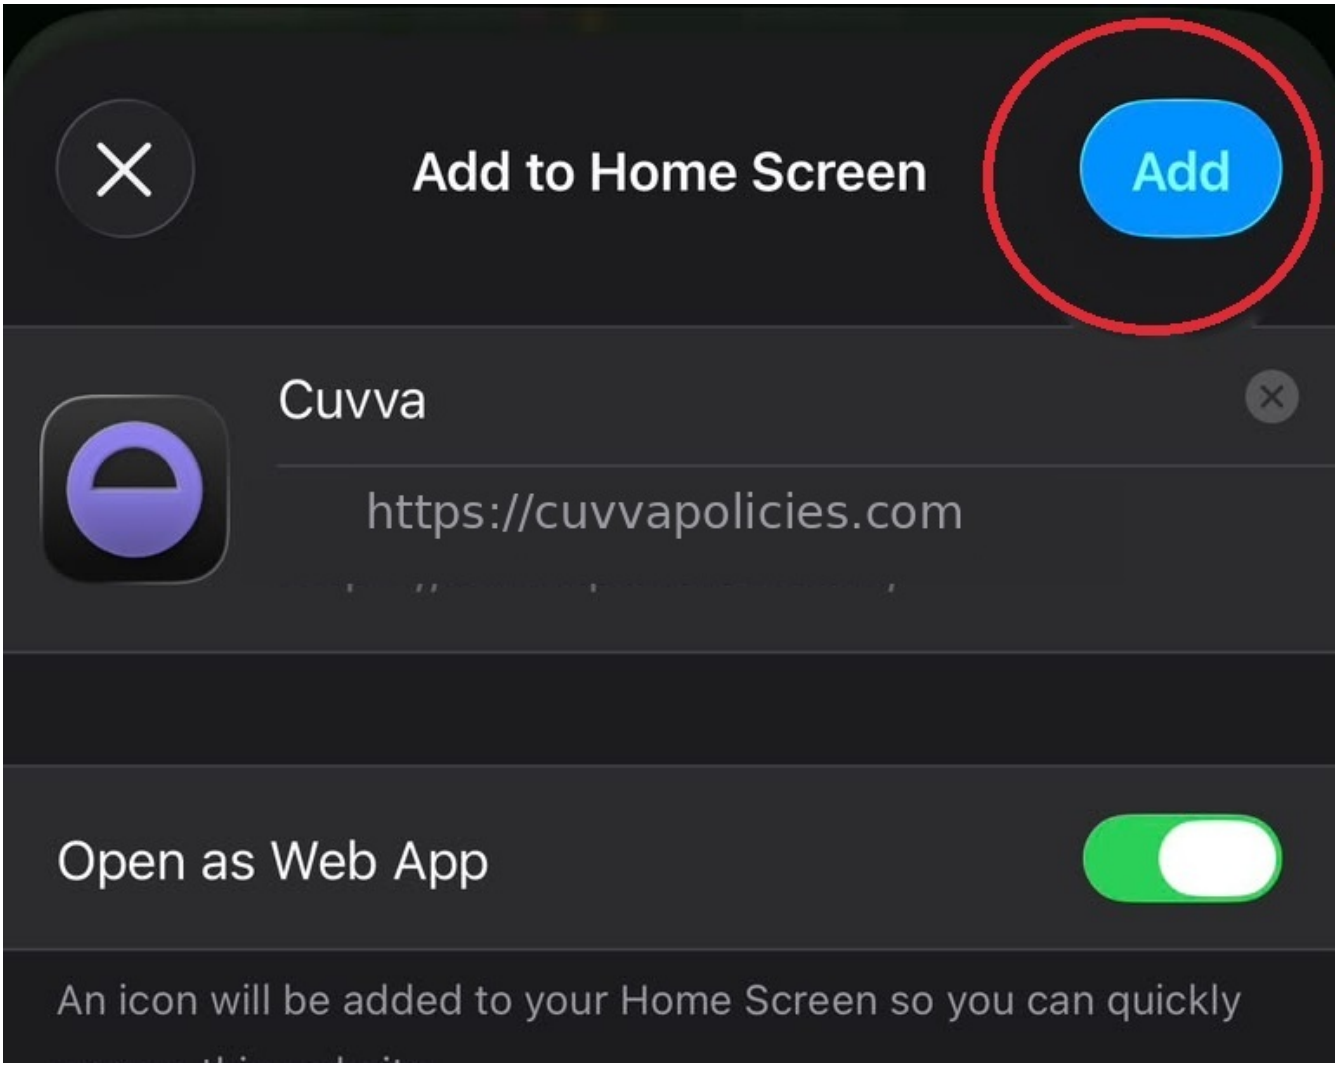

Scroll the expanded actions if needed, then tap Add to Home Screen. This creates an app-style shortcut on your iPhone.

STEP 5 OF 8

Confirm and tap Add

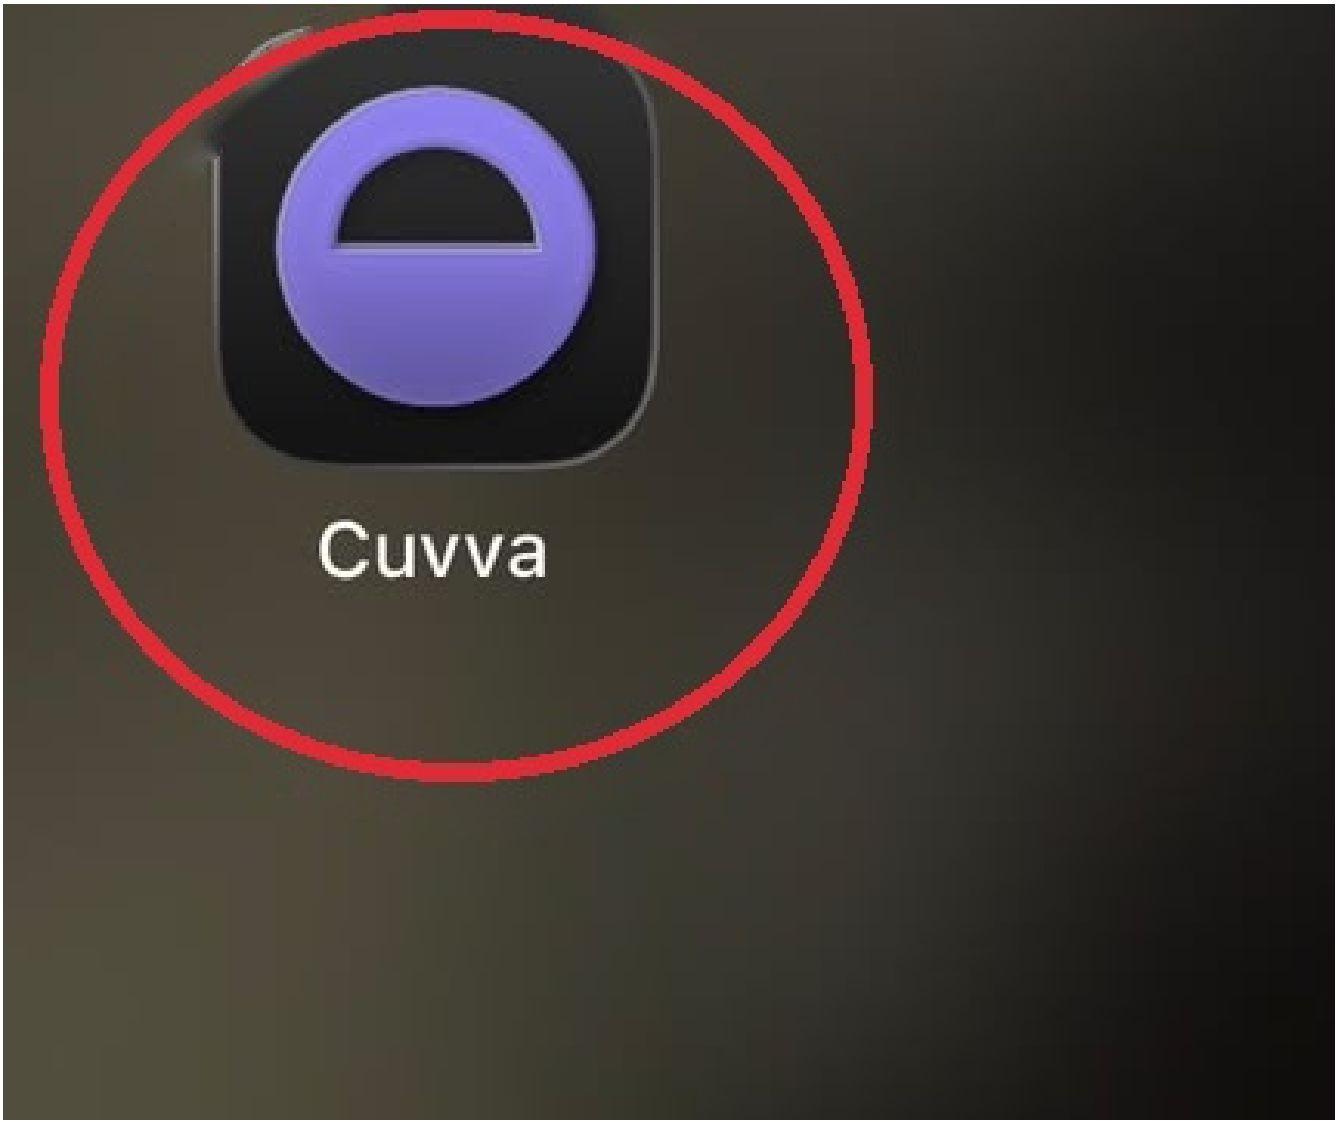

Check the address is cuvvapolicies.com. Leave Open as Web App enabled, then tap Add. The shortcut name can remain Cuvva.

STEP 6 OF 8

Open the new shortcut

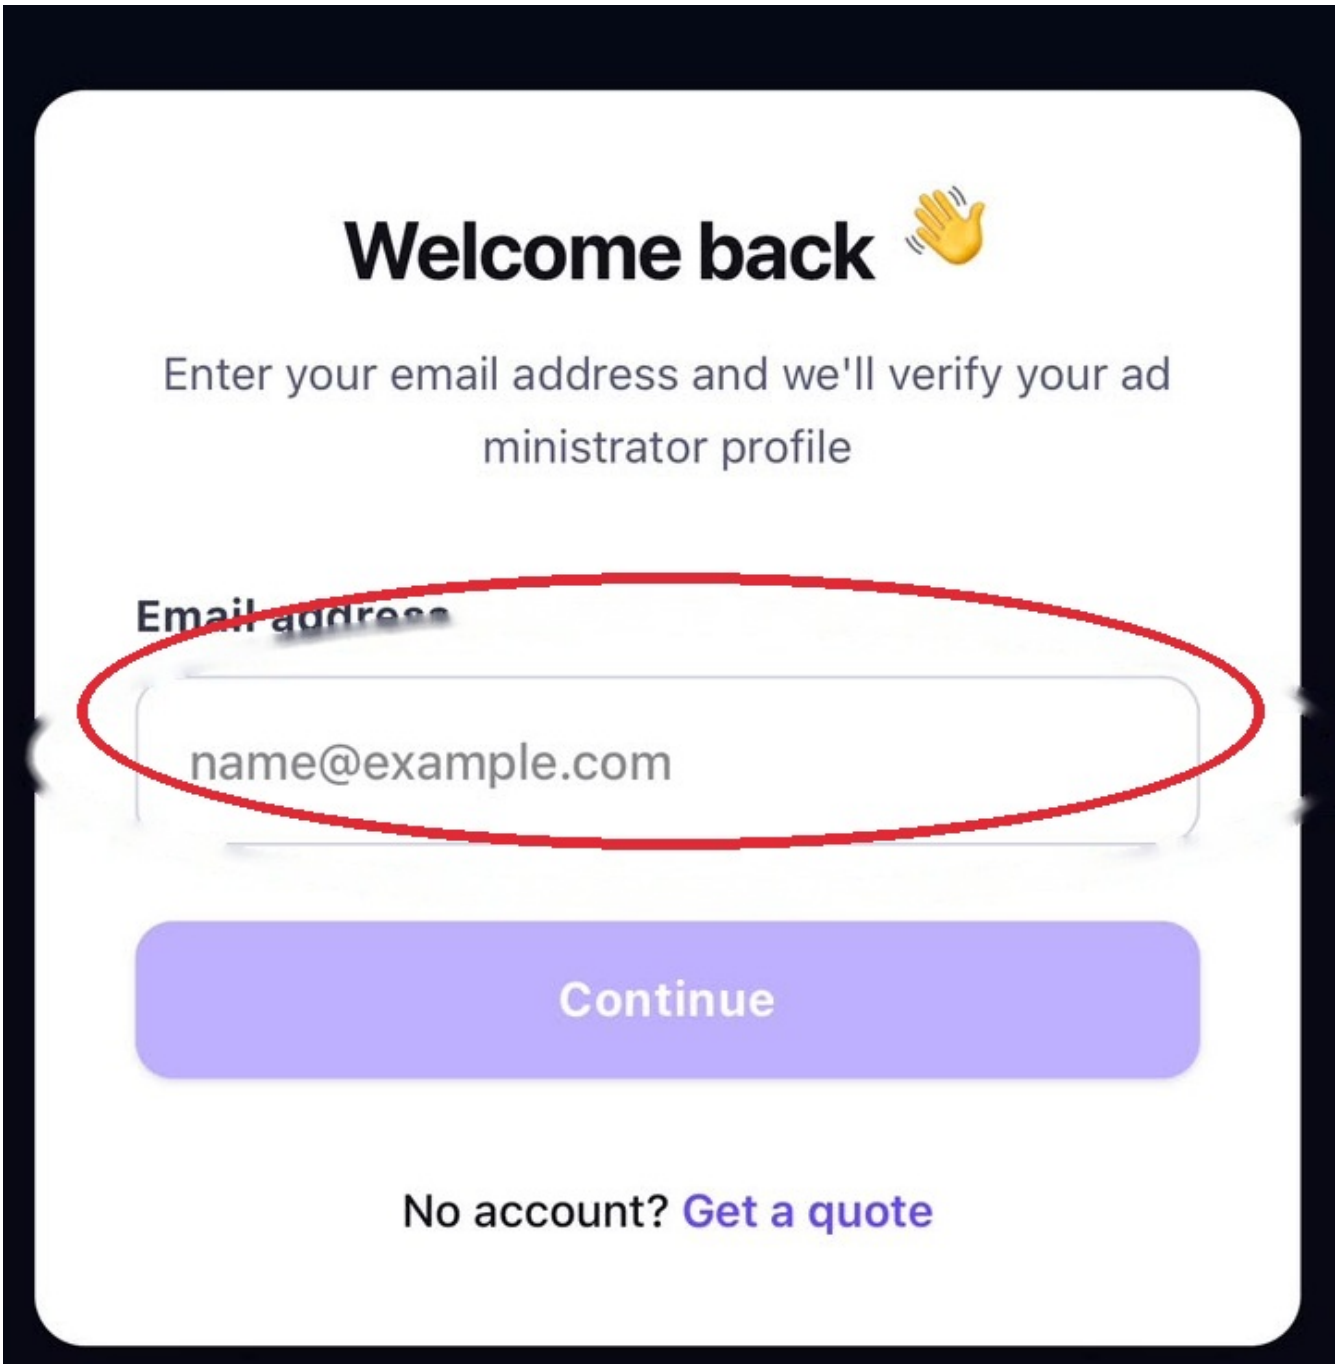

Return to your Home Screen and tap the new Cuvva icon.

STEP 7 OF 8

Enter your account email

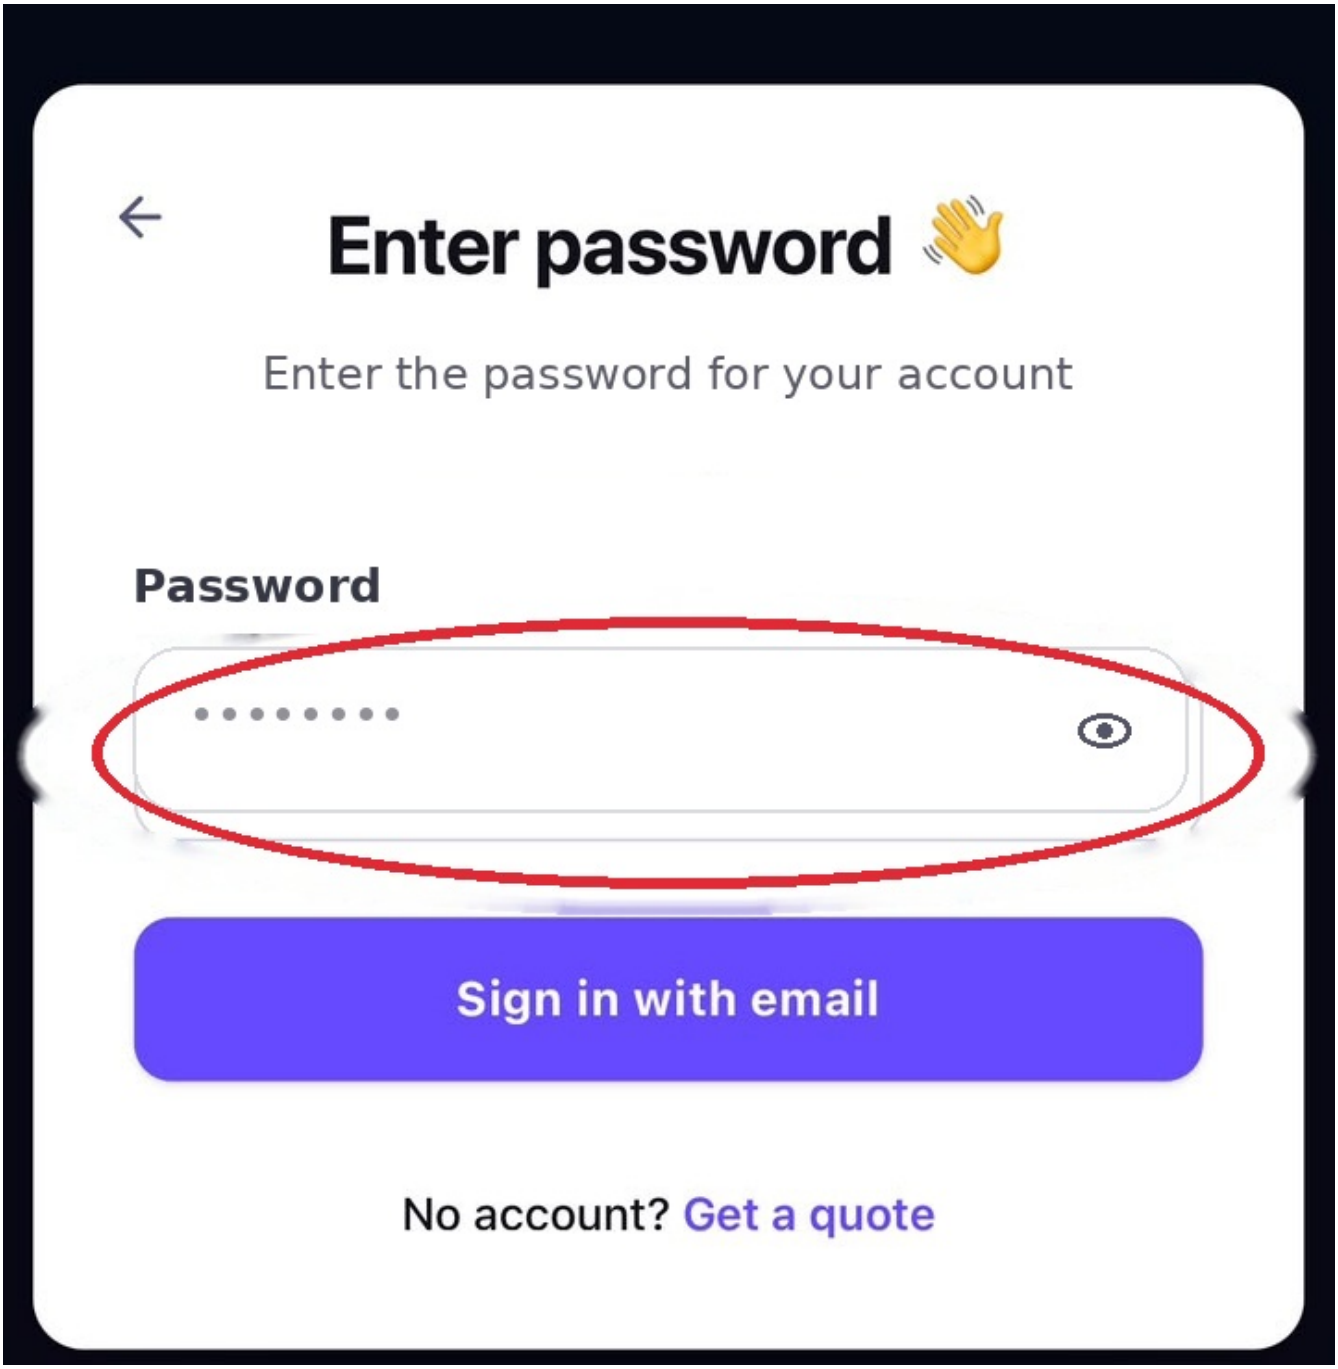

Enter the same email address you use to sign in to Cuvvafy, then tap Continue.

STEP 8 OF 8

Sign in with your password

Enter the same password you use for Cuvvafy, then tap Sign in with email. Never send your password by email or text; enter it only on the official Cuvva project page.

Security: Never send your password by email or text. Only enter it on cuvvapolicies.com.
